

# JSGroup

THE NAME YOU CAN TRUST

**Company Profile 2023**

## ABOUT JOINT SCIENTIFIC GROUP (JSGroup)

It was few years ago, that a new entrant set foot on the horizon of Kuwait's Power and Water Departments, Civil Construction & Infrastructure, General Trading and Oil & Gas auxiliary services sector. Joint Scientific Group General Trading & Contracting Company (hereinafter referred as "JSGroup") was established to charter a new territory by extending our management expertise beyond our existing business verticals into the Contracting, Construction & Supply of specialized high-quality services, materials and equipment.

Since then, our mission has been to provide a vehicle through which the most innovative companies in the world could be responsive to the development needs of the State of Kuwait. To this date, our goal remains unchanged in which we bring the most successful and technologically advanced organizations together to meet the demands of Kuwait economic growth.

Our success is attributed to our increasing strive for excellence, and to our dedicated staff determined in providing services that meet or exceed the expectations of our clients. Through our diverse industrial representation, technical knowledge and investment companies, the JSGroup will strive to pioneer the energy strength of Kuwait and meet future demands with foresight and careful planning that has established our well-earned reputation.

Through commitment to excellence, a dedicated workforce, and an adaptation of leading technologies, the JSGroup will deliver quality, innovation, price sensitive products and services, and investment opportunities. Through this, the Joint Scientific Group becomes the prime choice for customers, investors, and other partners, in its worldwide domain of business, encompassing Power & Water, Construction, Infrastructure, District Cooling, Oil & Gas, and General Trading sectors.

Today, the JSGroup is representing specialist companies from the USA, Europe, Asia & the Middle East, maintaining a steady service provider & supply of the very best of global products as it brings together the full spectrum of Engineering & Construction, Oil and Gas industry resources into a single coordinated enterprise. As the industry continues to advance through new opportunities for exploration and production, construction, JSGroup is committed to continuous improvement of its products, services, logistics and human resources, to bring clients unparalleled value and a competitive edge. In the process, JSGroup helps ensure sustained growth and profitability for its clients and itself.

The company's goals are not measured in numbers of transactions. JSGroup's true success is measured by whether it helps its clients achieve greater accomplishments. In that sense, JSGroup strives to be a true partner, with a common concern for good business practices and solid business results.

## Chairman's Message

JSGroup takes pride in being the business associate of all its affiliates and principals, who trusted us enough to make this possible.

We prepared ourselves to seize market opportunities wherever and whenever they occur and also took the measures needed to secure our unchanged strategic ambition of sustainable profitable growth. We have laid a strong foundation in the markets we operate and are committed to serve our affiliates with total integrity. Our local presence enables our affiliates to have better connectivity to local Kuwait Market.

As we are moving into 2023 with a better starting ground, a greater determination to succeed, and a strong commitment to provide exceptional services. We are confident of the future perspectives for our business and of our firmness to manage both the opportunities and the challenges ahead. We have successfully established ourselves in the various business activities covering Oil and Gas, Construction and Infrastructure, Power and Water and General Trading.

Our principal objective is to provide our affiliates with quality professional services that fully satisfy their needs. JSGroup is very fortunate to have strong and enduring relationships throughout the Kuwait Market. Being a privately held company has provided us with several competitive advantages to directly involve in the day-to-day management of our operations. We can act quickly to come up with unique and sophisticated solutions. Prudence and meticulous planning has always been at the heart of our decision making process.

I am very excited about our future and I believe that surge is better positioned than at any time in our history to fully realize its growth potential. Our company enjoy a high credit rating in the Kuwait Market and thus financially a strong company. We are proud of our achievements. I am confident that we will see even greater growth and scale even greater heights.

I want to thank all of you who have helped us to scale these new heights, each in your own way and according to your own means. I am counting on your renewed support in coming years so that we can reach even higher.

**Mr. Saad Al Ganbar**  
Chairman

## VISION, MISSION & CORE VALUE

Across our operations, Joint Scientific Group offers a unique blend of global reach, local knowledge, innovation, and technical excellence. We are united by our shared vision, mission, and guiding principles.

### Our Vision:

Joint Scientific Group professionals are united by a common purpose “to enhance and sustain Kuwait’s built natural and social environments”. Hence, JSGroup consistently builds a reputation as an indispensable auxiliary partner by supporting the realization of key projects through service innovations and the supply of superlative Services, Equipment and Materials.

### Our mission:

As partners in the growth of the industry, JSGroup continually endeavors to strengthen its present associations in Kuwait and further its expertise by exploring new collaborations experienced in meeting the industry’s business dynamics, JSGroup welcomes challenges and is driven to deliver reliable, efficient and credible solutions to support projects, and is committed continuously to providing both our Associates and Customers with the highest emphasis of Quality services.

### Our Core Value:

At JSGroup, the core is a set of shared and upheld values, the most important of which are credibility, reliability and efficiency. JSGroup roots its business practices in its responsibilities and commitments toward its partners, clients, employees and the environment, in recognition of the inextricable network of associations that characterize social and economic welfare.

## Employees

- Our employees are our most valuable and valued resource; they make our success possible.
- We are committed to creating a great place for our employees to work, grow and prosper.
- We respect and encourage our employees' ideas, diversity and cultures.

## Clients

- Our success is measured by the success of our clients.
- We are committed to our clients and to setting industry standards for client services and solutions.
- We are passionate about solving our client's problems and exploring new opportunities with them.

## Excellence

- We strive to achieve excellence in all areas of our business – Technical, Operational, and Administrative.
- We pride ourselves on bringing outstanding results to everything we do.

## Innovation

- We look for creative, new or better ways to provide our expertise in all dimensions of our business.

## Agility

- We embrace change, flexibility and adaptation in a rapidly evolving world.
- We strive to anticipate changes in market drivers and to work with our clients and employees to adapt to those changes.

## Profitable Growth

- Profitable growth drives our business and enables us to invest in, and to create opportunities for, our employees, clients and principal.

## QUALITY

JSGroup is all about people, top quality professionals dedicated to fulfilling your needs through Excellence of service.

JSGroup Utilizes the Highest Standards in delivering Quality services to meet our clients' satisfaction. Our Quality policy is in line with the client's specifications, implementing International Standards and Codes.

JSGroup Is continuously building a strong reputation for quality, customer satisfaction, fair dealing, valuing our people, and developing long term relationships with customers, service providers and suppliers.

JSGroup Holds the ownership and responsibility of Quality and executes the work with the most advanced technological resources.

JSGroup Believes, new requirements from our business affiliates are definitely new opportunities for improvement. JSGroup Ensures that the decisions are made at the right time and based on the best information available.

## STRATEGY

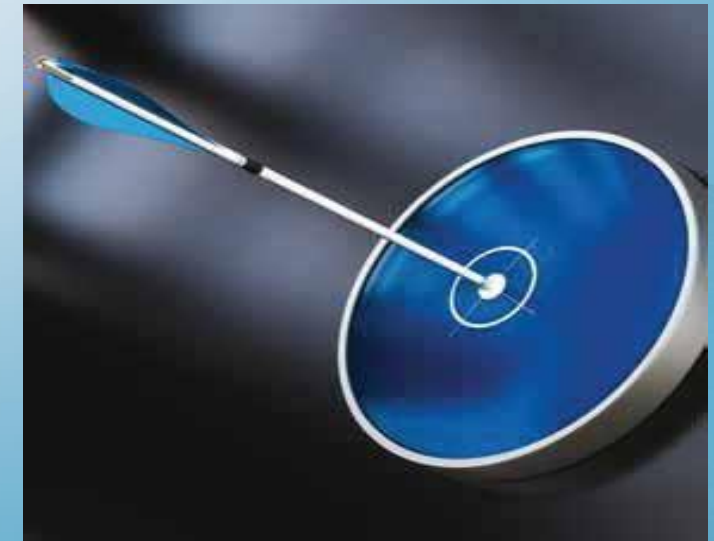

Revenue: Generating more revenue requires us to develop strategic insights about our clients' needs and goals, elevating and broadening our mutually beneficial relationships, and measuring our contribution to our clients' businesses.

Efficiency: Improving our efficiency means achieving speed, quality and effective use of resources throughout all our operations.

Innovation: Demonstrating our commitment to innovation requires us to continuously capture creativity in local markets. Our role is to develop and expand our capabilities, while creating services targeted to what's new and what is next in the world of business.

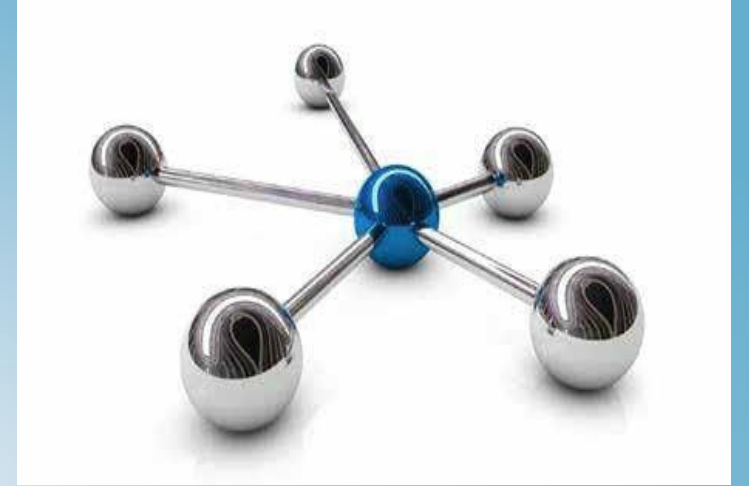

Thought Leadership: Maintaining our thought leadership means continuously anticipating future dynamics of the market and contributing to the design of social and employment systems on a local basis.

Organization and Culture: Evolving our organization and culture requires attracting and retaining high quality people for the long term. It also requires creating an environment that promotes entrepreneurship, rewards high performance, and motivates us to reach our full potential.

## SCOPE OF SERVICES

- **Oil and Gas**
  - Piping Works
  - Oil & Gas Downstream
  - Oil & Gas Upstream
  - Oil & Gas Support Services
- **Construction and Infrastructure**
  - Civil Construction
  - Infrastructure Works
  - Mechanical-Electrical-Plumbing Works (MEP)
  - Construction of Hospital, Universities, mall, Hotels, Roads, Bridges and Tunnels
- **Power and Water**
  - Power Generation
  - Water Desalination
  - Sewage Treatment
  - Turbine Inlet Air Cooling & District Cooling
  - Electric Power Plants
  - Water Desalination Plants
  - Sewage Treatment Plants
- **General Trading**
  - Oil and Gas Products
  - Electrical transmission and Distribution
  - Instrumentations

## MAIN PROPONENTS/CLIENTS

## Larsen & Toubro Ltd, India

### Company Profile

Larsen & Toubro Limited (L&T) is a technology, engineering, construction and manufacturing company. It is one of the largest and most respected companies in India's private sector. More than seven decades of a strong, customer-focused approach and the continuous quest for world-class quality have enabled it to attain and sustain leadership in all its major lines of business.

L&T has an international presence, with a global spread of offices. A thrust on international business has seen overseas earnings grow significantly. It continues to grow its global footprint, with offices and manufacturing facilities in multiple countries.

The company's businesses are supported by a wide marketing and distribution network, and have established a reputation for strong customer support.

L&T believes that progress must be achieved in harmony with the environment. A commitment to community welfare and environmental protection are an integral part of the corporate vision.

### Product / Services

Multiple businesses that serve the needs of different industries.

- Hydrocarbon
- Heavy Engineering
- Construction
- Power
- Electrical & Automation
- Machinery & Industrial Products
- Information Technology
- Financial Services
- Shipbuilding
- Railway Projects

### Awards/ Achievement/ Certification

L&T's achievements read like a record book of the engineering and construction industry. It has built the world's largest coal gasifier; India's biggest blast furnace, the world's largest continuous catalyst regeneration reactor; the world's biggest fluid catalytic cracking regenerator; India's largest oil and gas platform; Asia's highest viaduct; India's longest cross-country conveyor; India's first open-sea jetty; and the first power distribution products and systems engineered for a tropical environment. The company's successes are widely acknowledged. The Asian edition of Wall Street Journal's survey of Indian companies ranks L&T number one on two critical attributes – Quality and Reputation

### Business Relationship

JSGroup is an exclusive agent for Larsen & Toubro Hydrocarbon Engineering Limited in Kuwait.

Golar LNG

## Golar LNG, UK

### Company Profile

Golar LNG (“Golar”) is incorporated under the laws of the Islands of Bermuda. Originally founded in 1946 as Gotaas-Larsen Shipping Corporation. Golar is one of the world’s largest independent owners and operators of LNG carriers. Golar lead the industry in operational FSRU projects intended for long term floating storage and regasification service.

Golar has grown from a fleet of 6 LNG Carriers purely focused on LNG transportation, to a fleet of 13 vessels, dedicated to both LNG transportation and midstream floating solutions.

Today, Golar has four FSRU projects and is actively pursuing further growth as a midstream LNG company.

### Product / Services

LNG Transportation

Fleet consists of 13 vessels. Four of these vessels are dedicated to midstream floating solutions projects.

The remaining nine vessels are currently under dedicated time charter or available for spot employment or conversion.

Floating Storage & Regasification Unit (FSRU)

Golar lead the industry in operational FSRU projects intended for long term floating storage and regasification service. Golar recently earned fifth FSRU commitment based on a new building.

Floating Liquefaction (FLNG)

Golar’s FLNG strategy focuses on the development of low capital cost, rapid deployment floating facilities utilizing the conversion of high quality existing LNG carriers, floating technologies for the liquefaction of pipeline quality gas or associated gas (requiring minimal processing) and seek other innovative LNG solutions.

### Awards/ Achievement/ Certification

Golar LNG developed the world’s first Floating Storage and Regasification Unit (FSRU) projects based on the conversion of existing LNG carriers.

### Business Relationship

JSGroup is an exclusive agent for Golar LNG in Kuwait.

## Shelf Drilling Services Limited, UK

### Company Profile

Shelf Drilling is a leading contractor of jack-up rigs. We are incorporated under the laws of the Cayman Islands with Management headquartered in Dubai with rig operations across four core operating regions – Southeast Asia, India, West Africa and MENAM (Middle East, North Africa & Mediterranean). Our strategy is to maintain a sole focus on shallow water drilling services and leverage decades of industry experience and an outstanding track record to provide best-in-class drilling operations for customers.

Shelf Drilling's dedicated focus on jack-up rigs, geographic diversity, safe operations, customer relationships and experienced management team make Shelf Drilling the preferred choice for customers, employees and stakeholders.

### Product / Services

- Jack-up Rigs
- Shelf Drilling fleet consists of 36 jack-up rigs, and one swamp barge

### Awards/ Achievement/ Certification

- Listing on Oslo Børs and Redemption of Preferred Equity
- Second newbuild rig "Shelf Drilling Krathong" starts contract with Chevron Thailand
- Commencement of a 380-day contract with Shell in India

### Business Relationship

JSGroup is an exclusive agent for Shelf Drilling Services Limited in Kuwait

[www.shelfdrilling.com](http://www.shelfdrilling.com)

## Scientific Drilling International, India

### Company Profile

Scientific Drilling International (SDI) is an independent service provider offering complete high accuracy navigation and drilling solution. SDI is globally positioned to support a wide range of markets including the Oil & Gas, unconventional resources, Geothermal, and Mining Industries. SDI's global footprint reaches over a dozen countries, and nearly fifty locations.

### Product / Services

- **Drilling Motors** - Titan22, Titan TD, Titan HD, Titan II.
- **Rotary Steerable Systems (RSS)** - SRX 650 and SRX 740.
- **Measurement while Drilling (MWD)** - Mud Pulse (MP), Falcon MWD, Electromagnetic(EM), GyroMWD Module, GyroMWD.
- **Logging while Drilling (LWD)** - Sci-gamma API Natural, Gamma Ray, Sci-gain API Natural, Gamma Ray and inclination, Sci-guide Azimuthal, Gamma and inclination, Sci-Driver Near Bit Smart Motor, Sci-Quest Propagation Resistivity.
- **Wellbore Surveying** - Keeper Wireline Gyro, Keeper Memory Gyro, All Attitude Drop Keeper Gyro (AdK), Keeper Sightline Gyro, gyroMWD, gyroMWD Module, Electronic Multi-Shot System (EMS), Magnetic Steering System.
- **MagTraC MWD Ranging** - MagTraC MWD Ranging.

### Awards/ Achievement/ Certification

The company introduced the world's first downhole electronic steering tool for wellbore navigation ("The Eye"). This tool was used by directional drillers to accurately orient down hole motors to deviate wellbores

### Business Relationship

JSGroup is an exclusive agent for Scientific Drilling International in Kuwait.

## Viking Completion Technology, UAE

### Company Profile

Viking Completion Technology is a global well completions and intervention tool design, manufacturing, and services company. With a history of over 20 years, and a strong focus on engineering and technology solutions, Viking provides products and services to support its upstream oil and gas customers' well completion challenges.

Viking Completion Technology is an Engineering and Technology focused company specializing in the design and manufacture of completion products and intervention tools to support the Oil and Gas Market globally.

Viking's experience stretches from an extensive and proven record of delivering the right completion tools for a wide range of well applications, with a focus on reliability and efficiency. This is strengthened by our engineering group that leverages decades of experience in well delivery solutions across the globe, for a variety of environments and operating conditions.

Formed in 1997, and headquartered in the Jebel Ali Freezone in Dubai, United Arab Emirates, Viking Completion Technology is a privately owned company with operations across the globe. Our comprehensive spectrum of well completion products and services cover cased and open hole, artificial lift, HPHT, coiled tubing, intelligent, and custom solutions, all manufactured at our headquarters.

### Product / Services

- Packers
  - Retrievable
  - Permanent
  - ESP
  - Velocity String
  - Feedthrough
- Safety Valves
  - Tubing Conveyed
  - Wireline Conveyed
  - Safety Valve Intervention Tools
- Chemical Injection Valves
- Completion Accessories

### Business Relationship

JSGroup is an exclusive agent for Viking in Kuwait.

### Website

## Larsen & Toubro Infotech, India

### Company Profile

L&T Infotech is a global IT services and solutions provider. They provide the winning edge to their clients by leveraging their Business-to-IT Connect and deeply committed people. Their clients include industry leaders like Chevron, Freescale, Hitachi, Sanyo and Lafarge, among others. They have found in them a right-size partner who combines scale, stability and customer-centricity.

Their parent company is Larsen & Toubro Ltd. (L&T), a technology, engineering, manufacturing and construction conglomerate, with global operations. This rich corporate heritage has given them many inherent advantages that we translate into tangible benefits for their clients.

### Product / Services

L&T Infotech provides business solution to their clients in the following horizontals/ service lines,

- |   |                                   |
|---|-----------------------------------|
| 1) Testing                                  | 5) Oracle and Microsoft           |
| 2) Mobility                                 | 6) SAP                            |
| 3) Infrastructure Management services       | 7) Enterprise Integration         |
| 4) Business Intelligence / Data warehousing | 8) Manufacturing execution System |

### Awards/ Achievement/ Certification

L&T Infotech has been recognized for its best practices and case studies at several forums and events like, QIMPRO, Software Testing Conference (STC) and SPIN forums. The company also features prominently at QAI's High Maturity Best Practices Colloquium every year, where it shares CMMI High-maturity best practice.

### Business Relationship

JSGroup is an exclusive agent for L&T Infotech in Kuwait.

### Website

[www.lntinfotech.com](http://www.lntinfotech.com)

# TENDEKA

## TENDEKA Oil & Gas DMCC, UAE

### Company Profile

Tendeka was formed in 2009 by combining three specialist organizations I,e Digital monitoring solutions provider, Sensornet, Swellable elastomer experts, Swellfix, and wireless well communication specialists, well technology.

The amalgamation of the individual management structures of these organizations has created a unified leadership team with more than 200 years of collective experience in the oil and gas industry, primarily in the completions sector.

TENDEKA operates across a network of 18 regional bases, strategically located in key energy hubs including the North Sea, Middle East and Asia- Pacific and the USA, offering unique completion solutions by combining elements from our extensive product portfolio.

### Product / Services

Tendeka's products enable operators to optimize and manage production flow, protect reservoir integrity and enhance well stimulation

- Zonal Isolation
- Sand Control
- Reservoir Monitoring
- Wireless Technologies
- Reservoir Monitoring Software
- Fracturing
- Inflow Control Device
- Well Services
- TENDEKA provides a diverse range of upper and lower completion systems and field-proven production optimization technologies. From the simplest well to the most complex reservoir.
- TENDEKA gives you more control over your downhole engineering choices at every stage of the completion process.
- TENDEKA specialise in near-wellbore systems, that consistently provide truly effective solutions.

TENDEKA can locally design, manufacture and adapt each completion component to meet the exact challenges of your well, and your field development program

### Awards/ Achievement/ Certification

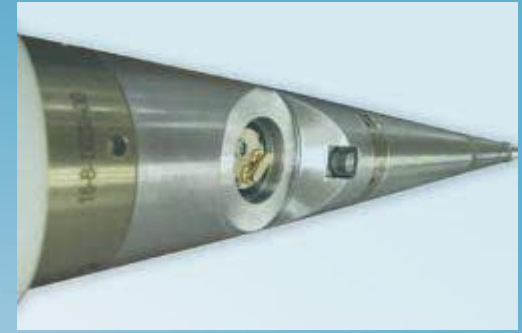

- Offshore Achievement Awards 2014
- Shortlisted 2014 ONS Innovation Awards
- Member of the British Safety Council

### Business Relationship

JSGroup is an exclusive agent for TENDEKA in Kuwait.

### Website

[www.tendeka.com](http://www.tendeka.com)

## Surtech International, UAE

### Company Profile

Geosoft/Surtech as served global Energy Market since 3 decades & has been delivering construction support, operational support and surveys, including Rig Move Surveys, Engineering, Drone Inspection, Underground and Offshore Surveys. We provide 3D Laser Scanning, Modeling & Dimensional Control Services along with implementation of Digitalization solutions.

### Product / Services

- 3D Laser Scanning and Modeling
- Offshore Hydrographic Survey
- Dron Inspection & Virtual Tour
- Digital Transformation
- Underground Utility Detections Survey
- Topographic Survey

### Business Relationship

JSGroup is an exclusive agent for Surtech in Kuwait.

### Website

[www.geosoft-surtech.com](http://www.geosoft-surtech.com)

## Hunting Energy OOR, UK

### Company Profile

Hunting Organic Oil Recovery process is a proven and innovative enhanced oil recovery technology which optimizes reservoir performance and recovery rates.

This breakthrough Unique technology form of microbial enhanced oil recovery, which manipulates the resident down-hole ecology offers operators an advanced tertiary oil recovery resulting in increased production, the lowering of lifting costs and significantly reducing H2S levels.

The process applies the science of mobilizing microbes that are resident in reservoirs to increase oil production. By batch treating with supplemental nutrients, the process significantly increases a specific microbial population. As part of their life cycle, they move to the oil/water interface, reducing surface tension resulting in the release of trapped and residual oil.

Features • Low cost • Environmentally/ecologically friendly solution • True enhanced production—averaging 92% • Over 340 applications on and offshore • Significantly reduces H<sub>2</sub> S by outcompeting SRBs

Benefits : Improved reservoir economy • Increased profitability for all stages of fields • Recoverable reserves increase • Significant increase in the net present value of the field • Deferral of well abandonment • Improved reservoir ecology • OWS - Organic Well Sweetening • OWC - Organic Wellbore Cleaning • ORT - Organic Reservoir Tracing

### Product / Services

- Organic Oil Recovery

### Business Relationship

JSGroup is an exclusive agent for Hunting Organic Oil Recovery (OOR) in Kuwait.

### Website

[www.organicoilrecovery.com](http://www.organicoilrecovery.com)

## Engineering Petroleum Services, Egypt

### Company Profile

EPS was founded in 2004. EPS was and continue to be one of the most active a representative for many international companies dealing with the Oil & Gas, Petrochemicals, and Refineries Sectors in EGYPT. Steady Success of EPS has been achieved by being Proactive and aggressive in dealing with the opportunities in the market and is effective in closing the deals with the customers to maintain the best benefit to both our principals and customers.

### Product / Services

- GRE Lining of OCTG - Casing, Tubing & Flowlines
- Inspection & Repairs of Lined Tubulars
- Installation services of GRE Lined Pipes / OCTG
- Supply of GRE Pipes & Accessories
- Casing, Tubing & Flowlines

### Business Relationship

JSGroup is an exclusive agent for EPS in Kuwait.

### Website

[www.epserv.com](http://www.epserv.com)

## Associated Technology Pipeline Limited, UK

### Company Profile

Associated Technology Pipeling (ATP) is a leading, independent, specialist provider of Pipeline Integrity Management System (PIMS) software to the oil and gas industry.

Established in 1998, their special PIMS expertise comes in the form of our scientific approach to information management, software development and the specification and development of mathematical models describing the technological processes of pipeline transport networks.

Using this approach, PiMSlider is under continuous development, guided and driven by customer feedback, developments in the pipeline industry and recommendations of our in-house experts.

Associated Technology Pipeline takes pride in delivering a superior customer experience, from the development and installation of our software through user training and ongoing support, to ensure each customer benefits fully from PiMSlider's rich functionality.

### Product / Services

Pipeline And Asset Integrity Service (PAIS)

### Business Relationship

JSGroup is an exclusive agent for ATP in Kuwait.

### Website

[www.atpuk.co.uk](http://www.atpuk.co.uk)

## Petris Industrial Services, Romania

### Company Profile

Inheriting two years of activity from the pioneer Tris Human Resources, Petris Industrial Services SRL was founded in 2008, the year who saw Romania as the youngest member of the European Union.

Petris provides Staffing Solutions (Personnel Recruiting and Personnel Hiring) for Oil & Energy Industry, Construction and generally heavy industries around the world.. Besides excellent human resources, our strength point became the Internationalization.

Being present on the production territory, we assist our clients not only with the recruiting, but with the local work permits, local tax and levies payment, visa issue, insurance, international transportation and when requested, allowance organization.

Along the years, Petris has been qualified directly by the main key players in Oil &Energy Industry, becoming part of their vendor list and therefore, invited to the most important international tenders for Personnel Services.

### Product / Services

#### Project partnering

- Full project life cycle support
- Training and development
- Market intelligence

#### Talent resourcing

- Temporary recruitment (Hiring)
- Permanent recruitment (Head Hunting)
- Master service provider

#### Global care and mobility

- Onboarding and offboarding
- Payroll and taxation
- Visas, work permits and logistics
- Welcome support and in-country services
- Medical, liability and travel insurances
- HSE Services

### Business Relationship

JSGroup is an exclusive agent for Petris Industrial Services in Kuwait.

### Website

[www.trishr.com](http://www.trishr.com)

## Construction and Infrastructure

## Shapoorji Pallonji & Co. Ltd., India

### Company Profile

Shapoorji Pallonji & Co. Ltd. ("SPCL") The name that continues to leave a lasting impression 145 years since it was first etched on the urban landscape in India.

In 1865, it was entrusted with the construction of the Malabar Hill water reservoir in Mumbai. Over the years, SPCL has built diverse civil and structural engineering masterpieces like highrise skyscrapers, presidential palaces, 5-star hotels, state-of-the-art stadium, IT complexes, housing complexes, townships, hospitals, expressways, power plants and industrial projects.

SPCL started its overseas operation way back in 1971 when the Sultan of Oman decided to build his palace around his throne, even he placed his royal trust in SPCL. Since then SP Middle East is working under the banner of SPCL, has been carrying out iconic buildings in UAE, Saudi Arabia, Qatar, North African Countries and other countries namely Algeria, Ghana, Gambia, Nigeria, Kenya, Mauritius and Afghanistan.

SPCL has now registered in Kuwait as Shapoorji Pallonji Kuwait in partnership with JSGroup and are already pre-qualified for leading Government Organizations like Kuwait University, Ministry of Health, Ministry of Housing, Ministry of Public Works, etc.

### Product / Services

#### Services

- Conventional Contracting
- General Contracting
- Design & Build
- EPC (Engineering Procurement & Construction)

### Awards/ Achievement/ Certification

- Award for One Million Safe man-hours at ABB Project
- ACCE L&T Formwork Award at I-flex Park
- ACCE L&T Endowment Award 2009.

### Business Relationship

JSGroup is working under joint venture agreement with Shapoorji Pallonji & Co. Ltd in Kuwait.

### Website

## Afcons Infrastructure Limited, India

### Company Profile

In its 50th year of operations, AFCONS, is a part of the Shapoorji Pallonji Group, the third largest construction group in India with a group turnover in excess of Rs 90 billion.

AFCONS has a presence in almost the entire spectrum of Infrastructure activities in India and transnational in the Middle East and Africa. Over the last five decades, AFCONS has emerged as the leader in the areas of Marine Works, Highways, Bridges, Metro Works, Power Houses, Tunnels, Oil & Gas, LNG Tanks and other general Civil Engineering Projects.

AFCONS has 6500 dedicated personnel, which includes 1060 engineering & Management Personnel highly skilled workmen and various dedicated site level personnel.

### Product / Services

- SURFACE TRANSPORT - Construction of bridges/flyovers/viaducts on pile foundations/ well Foundations and open foundations.
- RAIL & METRO - AFCONS has laid tracks for over 3000 kilometers across India. Metro portfolio projects comprises of 5 elevated and 2 underground metro projects.
- OIL & GAS - AFCONS has ventured into the field of Offshore Oil & Gas in 2008 and recently ventured into Onshore Oil & Gas projects.
- HYDRO & UNDERGROUND - Tunnel construction in collapsible material is a specialised construction and AFCONS was the first company in India to have successfully executed such civil work.

### Awards/ Achievement/ Certification

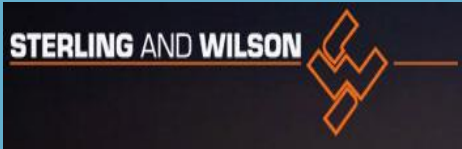

- For the 7th time in a row, AFCONS got the Most Admired Companies Award from Construction World.
- Third Fastest Growing Construction Company Award from Construction World.
- Award for safety and HSE by Ministry of Labour, Bahrain.
- EPC World Award 2013 for Outstanding Company in Railway Projects in EPC category.

### Business Relationship

JSGroup is working under joint venture agreement with Afcons Infrastructure Limited in Kuwait.

[www.afcons.com](http://www.afcons.com)

## Sterling and Wilson, India

### Company Profile

Sterling & Wilson was formed in 1971 with the Shapoorji Pallonji Group taking a 51% stake in the company. Till 1997 the company was mainly focused on the Mumbai and Delhi markets providing services for the entire HV (High Voltage) & LV (Low Voltage) Electrical Systems.

Consistent and repeat orders by many key clients enabled Sterling & Wilson to become India's leading Electrical contracting organization. Almost 65% of its order booking was coming from existing clients that include Tata Group, Raheja Group, Citibank, Dell, Intel, ICICI Bank, Indian Hotels, Wipro, Hiranandani Group, Ericsson, Bharti, PVR, Inox, etc.

In 2007, Sterling & Wilson established the plumbing & fire fighting service offerings. With a highly experienced team, the company has executed projects with specialization in Sanitary wares, Hydro Pneumatic system, Water treatment plant (Filtration system), Reverse Osmosis system, Drainage system, Solar water system, Swimming pools, Boiler & Hot water generator system, Hydrant and Sprinkler. With a lack of good organized players in this industry sector, there is a huge scope for growth.

### Product / Services

- Electricals
- HVAC
- MEP Projects
- Solar
- DG Sets
- DG Sets
- Data Center
- EPC
- Panels
- Plumbing
- Fire Fighting
- Transmission & Distribution
- EPC Projects
- Low voltage Systems
- Co-generation

### Awards/ Achievement/ Certification

Today Sterling & Wilson, has evolved as India's leading MEP (Mechanical, Electrical & Plumbing) Services Company with almost 60% of its business coming from electro-mechanical projects.

While the company has been instrumental in pioneering MEP services in India, it has already executed several prestigious MEP projects internationally e.g. Golden Jubilee House, Africa, International Cricket Stadium, Africa, Constance Mofooshi Resort, Maldives, Qatar Project

### Business Relationship

JSGroup is Joint Venture partner with Sterling & Wilson Ltd in Kuwait.

### Website

[www.sterlingandwilson.com](http://www.sterlingandwilson.com)

## Victory OMS, Italy

### Company Profile

Victory OMS ("VOMS") also known as Victory Dredging Equipment was founded on 28th August 2007 by Miguel Boa baid Filho. Focused mainly in the port and coastal engineering sector. VOMS perform hydrographic surveys, project preparation and sea and river dredging works, port and coastal engineering special projects, rock removal, hydraulic landfill, beaches restoration, amongst other activities.

#### Industries

- Oil, Gas & Telecommunications
- Renewable Energy
- Port Construction

### Product / Services

The key services are:

- Dredging and Demolition
- Geophysical and Geological Processing
- Geotechnical Sampling
- Hydrograph & Geophysics
- Oceanography & METOC

### Awards/ Achievement/ Certification

Over the past 6 years the VOMS has grown on a reputation of excellent quality, efficiency and with a solution to any type of project. Now with offices in Brazil, Panama and U.A.E and strategic partnerships in the US, Australia and Europe VOMS are able to offer a global solution on a local level

## Power and Water

PureLine

PureLine Inc., USA

### Company Profile

PureLine's patented and proven high-purity Chlorine Dioxide generation equipment is enhancing the safety, reliability, efficiency and cost-effectiveness of the water treatment process, Surface and Air Chlorine Dioxide Treatment.

PureLine is experts in the generation and application of chlorine dioxide. PureLine specializes in designing and implementing chlorine dioxide solutions utilizing our broad line of proven CIO2 generators and pre-cursor chemicals.

PureLine supports various markets, including oil & gas production, municipal water, hospital and health care facility secondary disinfection, food and beverage, district energy, and manufacturing industries.

### Product / Services

#### Consulting and Engineering

The true value with PureLine is the support they provide before, during, and after the sale. They learned a long time ago that simply having the best and most reliable equipment doesn't necessarily solve the problem. Their staff of experienced engineers, chemists, and master technicians, partner with client, to design.

#### CIO2 Generator & Chemicals

PureLine has developed a complete line of proprietary pre-cursor and stabilized CIO2 products to give our partners a safe and reliable single source for the generation of chlorine dioxide.

Each product has been specifically formulated to create maximum efficiency while prolonging the usable life of your equipment.

#### Service Plans

Service plans a relationship with PureLine goes on for the life of your generator.

The experts that design and manufacture our equipment are the same people that service the generator in the field. With almost 20 years of installation history we have compiled service plans to meet the needs of client.

## Boyle Energy Services & Technology Inc., USA

### Company Profile

At Boyle Energy Services & Technology Inc., (BES&T), we excel at providing sustainable engineering, design, and commissioning solutions for large power generators, industrial and chemical manufacturing facilities, and refineries around the world. By leveraging industry expertise and advanced engineering, BES&T focuses patented critical services and specialty equipment to assure maximum operation and performance of capital systems.

With more than 20 years of experience, BES&T Commissioning has set the standard for efficient field services for the world's leading engineering, procurement, and construction projects. We practice continuous improvement leading to innovative habits and project designs that lower costs and shorten schedules for the best possible outcome.

### Product / Services

Engineering, Design & Commissioning Solutions for Large Power Generations.

### Awards/ Achievement/ Certification

MILESTONE – USA – 582 MW: First commercial Coal gasification Project Initial Phase, Power Island: FrothFlush™, SigmaClean™, SigmaBlow, Surface Condenser

Peru – 520 MW: 2-on-1 GE/CMI/GE combined cycle FrothFlush™, SigmaClean™, SigmaBlow™

Canada – 260MW: 1-on-1 combined cycle, Natural Gas Fired Sub-Zero Temperature Project, FrothFlush™, Chemical Clean, SigmaBlow™, Air Cooled Condenser

### Business Relationship

## Trading

## Schneider Electric, France

### Company Profile

Schneider Electric ("Schneider") is a global specialist in energy management. Starting from its roots in 1836 in the iron and steel industry, heavy machinery, and shipbuilding, it moved into electricity and automation management. After 170 years of history, Schneider Electric has become today the solution provider that will help you make the most of your energy. Schneider Electric's active acquisition strategy has brought more than 100 brands to its portfolio.

Schneider Electric, the global specialist in energy management, operates in over 100 countries with over 160,000 employees (as of 31 January 2014). In 2013, the company generated revenues of €23.6 billion. Schneider's expertise in energy management is built on the integration of Power technologies, enabling efficient distribution of electricity from points of generation to points of consumption, with Automation technologies.

Subsequently, these Power and Automation offers were combined with IT technologies, to offer comprehensive solutions driving both energy efficiency and operational efficiency in the Group's key markets: buildings, industries, data centers and infrastructures.

## Vatan Kablo Metal End. TIC. A.S., Turkey

### Company Profile

One of the largest companies on cable manufacturing in Turkey Vatan Cable, based in 1975 on 100% of the Turkish investment, possesses an industrial complex on which all kinds of a cable from % 99,99 Copper rod to 72 kV high voltage cables.

Vatan Cable has determined first priority as “ HIGH COSTOMER SATISFACTION” with combining the latest technologies and experience.

Vatan Cable has the only in Turkey hi-tech industrial complex, on which the high-quality copper rods are made. On this industrial complex all production automatized, copper arriving here as cathodes, then it is melted by” UPCAST” method and made copper rod from 8,12 to 16 mm.

Vatan Cable offered outstanding performance with its all units in order to become a leading international brand in this challenging road, completed this test successfully by further strengthening its insufficient matters.

### Product / Services

#### Products:

- Low Voltage Cables
- Halogen Free Cables
- Medium Voltage Cables
- High Voltage Cables
- Copper Conductor
- Rubber Cables

### Awards/ Achievement/ Certification

- In Turkish Red Crescent’s Donors Medal Ceremony that was held on the 151st anniversary of its establishment, Vatan Kablo was honored with a gold medal.
- Vatan Kablo has been awarded “The Best Supplier of the Year” in the project category on Siemens Suppliers’ Day, organized annually by Siemens Turkey in 2018

### Business Relationship

JSGroup is the exclusive agent for Vatan Kablo in Kuwait.

## Tubacex S.A

### Company Profile

TUBACEX is an industrial Group founded in 1963 devoted to manufacturing seamless tubes in stainless steel and high-nickel alloys.

The TUBACEX group is dedicated to the production and sale of seamless tubes in stainless steel and high nickel alloys. In addition, it manufactures other long stainless steel products.

Tubacex Group stands out for its vocation to become a fully-integrated supplier of tubular solutions from design, distribution and installation to maintenance. The Group has the widest portfolio of tubular solutions. We produce and sell seamless stainless steel and high nickel alloy tubes for different applications as well as offering different services.

As part of our commitment to high technological value products, TUBACEX has developed production capabilities in those segments requiring higher levels of expertise in the Oil & Gas, Powergen or Aerospace sectors where higher growth is expected.

The group's Head Office is located in Llodio where it also has industrial facilities, in addition to those located in Amurrio, Arceniega (all three in the province of Alava- Spain), in Ternitz (Austria) in Greenville (Pennsylvania, USA); in Vittuone (Milán) and San Niccolo (Piacenza), both on them in Italy; in Umbergaon (Gujarat, India); in Thailand, in Saudi Arabia, in Norway and in UAE,

TUBACEX is a company that has made a considerable effort in the modernization of a traditional sector of the iron and steel industry

### Product / Services

- Seamless Stainless-Steel Tubes
- Round bars
- Pipe Fittings & Special Components
- Mechanical Tubes
- Billets and Ingots
- Tubacoat

### Business Relationship

JSGroup is the exclusive agent for Tubacex S.A. in Kuwait.

## Oy MGT-Meltron Ltd., Finland

### Company Profile

Founded in the 1980's, MTG-Meltron Ltd has been involved in the continuous development of superior quality lighting products with the most advanced optics and materials.

The Meltron Team's versatile expertise in the field of interdisciplinary technologies and techniques

- nano-scale Diffractive Optics (DO)
- thermodynamics integrated with leading-edge materials
- industrial R&D and production processes
- electrical engineering

form the strong roots of our line of business.

These assets, combined with cross-scientific thinking, and an exceptional ability to innovate, led to the successful development, and launch, of all modular Meltron Lighting Systems.

Since its inception, Meltron has researched and developed its components and patented optics to meet the specific lighting demands of its customers, with energy savings, quality, long lifetime, and security being foremost in its mind.

### Product / Services

#### Products:

- Meltron MEX – Lighting System
- Meltron MRSLs – Roads and Street Lighting System
- Meltron PL – Property Lighting Systems
- Meltron PLS – Property Lighting System

### Business Relationship

JSGroup is the exclusive agent for Meltron in Kuwait.
